DISTRICT ROAD FUND.

NOTIFICATION No. 159

The 8th April 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Chittagong, Noakholly, Tipperah, and Chittagong Hill Tracts for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

G. F. E. S. NEILL, Major, M.A.C.,

Under-Sery. to the Govt. of Bengal, P. W. D.

Abstract of a report by the Chairman of the District Road Cess Committee, Chittagong, on the Committee's operations for the cess year 1882-83.

A SYSTEM of holding a Committee meeting on the first Monday in each month was introduced and found to work well. The attendance was good and the members took interest in their work, and showed more inclination to consider the interests of the mofussil rate-payers than formerly.

Rupees 14,000 were allotted for the improvement of the village roads in the district, of which Rs. 2,000 were made over to the Branch Committee at Cox's Bazar, and a greater portion of the remaining Rs. 12,000 was distributed for improving the village communications in the various thanas of the sudder sub-division.

The trees planted on the sides of the Ramghur Road have been maintained, and the sides of the Hill Tract roads from Halda to Sultanpore been planted by a private individual at his own cost.

The existing roads have been efficiently maintained and are generally in improved condition. There is, however, a great need of cross-communications in the district, and efforts are being made to have this supplied from the village road grant.

The several establishments under the Committee have worked well.

A. MANSON,

Chairman, District Road Committee.

Abstract of a report by the Chairman of the District Road Cess Committee, Noakholly, on the Committee's operations for the cess year 1882-83.

Iron bridges are being put up on the roads constructed in the islands of Hatia and Sunderp, and materials for the abutment work of these bridges have been collected. Materials for the masonry abutment of the proposed screw pile bridge over the Noakholly Khall at Dhoomohur on the Chittagong road have also been to a great extent collected. The work will be set on foot as soon as the estimate is sanctioned by Government. Several tenders have been received from firms in India and England for the construction of the above screw pile bridge.

The diversion and extension of the old Lakhipore road and the Nowdona tow-path have been completed, and the Parusuram road nearly completed. Much injury was done to the works by the early setting in of the rains, and a heavy flood in June caused considerable damage to the Chagalnaya road, with this exception all the roads in the district are in good order.

In some instances money has been paid to village mutthers by way of grant-in-aid for the construction and repairs of village roads. Rules have been framed under which grants of money are made on the responsibility of substantial mutthers of the villages. Some of them are selected to execute the work, and others to certify correctness of the amount spent.

No compensation whatever has been given for lands taken up for these roads, settlements being made by the villagers themselves with the owners of the land.

Trees have been planted in almost all the main roads in the district. Most of them are fruit-bearing, and they are thriving well.

The members of the Branch Road Cess Committee at Fenny sub-division appear to have taken interest in their work.

The District Engineer has given satisfaction, and his subordinates, with one exception, have worked fairly well.

RAMLAL SEN,
Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Tipperah, on the Committee's operations for the cess year 1882-83.

In all, nine meetings of the District Road Cess Committee were held during the year. The attendance of the members of this Committee and that of the Brahmunbariah Branch Committee was fair. But the attendance of members at the meetings of the Chandpore, Chowdagram, and Muradnagar Branch Road Cess Committees was worse than it was last year.

Since its constitution the District Road Committee has constructed, improved, or maintained about 67 village roads and two khails or water-courses in the district.

Six hundred and fifty fruit trees have been put out on the Companygunge road, and considerable progress in tree-planting was made on the road from Commillah to Arnybary. The total number of trees planted and protected with tattees was 2,131, which represent a length of 18 miles of road planted.

The books and returns were all in good order and correctly kept up to date.

The different establishments under the Road Committee have, on the whole, worked satisfactorily.

L. R. FORBES,
Deputy Commissioner.

No. 462 OT., dated Camp Comillah, the 27th February 1884.

From—E. E. Lewis, Esq., Commissioner of the Chittagong Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the following report on the administration of the district road funds in the Districts of the Chittagong division for the cess year ending 30th September 1883, and to annex hereto the district reports and accounts in original, together with a general abstract of the accounts for the whole division.

2. An abstract of particulars regarding the meetings of the several District Road and Branch Committees in the Regulation Districts of this division during the year under report is also enclosed.

3. The reports and accounts were received in this office on the dates noted in the margin. The delay in Chittagong is attributed to non-receipt of accounts from the sub-Division of Cox's Bazar on account of which the figures for the whole district could not be compiled and laid before the Committee for approval until

Chittagong, 6th February 1884.
Noakholly, 17th December 1883.
Tipperah, 23rd December 1883.
Hill Tracts, 8th November 1883.

the 4th February last.

4. The provisions of Act IX (B.C.) of 1880 have not been in force in the Chittagong Hill Tracts. There is no Committee there for the management of its road funds, the administration therefore solely rests with the Deputy Commissioner.

The subjoined table compares the attendance of the members of the District and Branch Road Committees with that of the preceding year :—

COMMITTEE.	CESS YEAR ENDING 30TH SEPTEMBER 1882.				CESS YEAR ENDING 30TH SEPTEMBER 1883.			
	Members.		Number of meetings held.	Average attendance at meeting.	Members.		Number of meetings held.	Average attendance at meeting.
	Official.	Non-official.			Official.	Non-official.		
Chittagong	5	10	6	8.16	5	15	8	10.4
Cox's Bazar	5	12	15	7.26	2	4	5	4.2
Noakholly	5	7	4	6	5	12	10	5.7
Fenny Branch Committee	5	13	10	8.6	2	10	4	2
Tipperah	5	13	10	8.6	5	11	9	8.8
Brahmanbariah Branch Road Cess Committee	5	12	6	6.6	5	12	4	6.25
Chandpur Branch Road Cess Committee	5	16	5	9	5	15	7	9
Muralagar Branch Road Cess Committee	2	18	6	10.7	2	18	6	9.6
Chowdagram Branch Road Cess Committee	4	11	5	9.2	4	13	6	8

From the above it will appear that the attendance of the members in Chittagong, Tipperah, Brahmanbariah and Branch Committees in Tipperah was fair, but in the case of Noakholly and the Branch Committees of Fenny and Cox's Bazar it was most unsatisfactory. The members of the Committees, however, are reported to have taken interest in their work.

5. The total receipts of the division for the year under revenue amounted to Rs. 2,95,393-13-6. This, together with the unexpended balance of the previous year and the receipts under the heads "Advances" and "Deposits" give a total income of Rs. 4,03,360-1-8 available for expenditure during the year under report. Out of this sum, Rs. 2,94,724-5-5 were actually expended, and Rs. 21,105-7-7 expended in repayment of advances and deposits, leaving a net balance of Rs. 87,530-4-8.

6. In Chittagong the year began with a deficit balance of Rs. 2,657-9-4 and, it is satisfactory to observe that the fund is now in a solvent condition, with a balance of Rs. 28,917-8-7 at its credit at the close of the year.

7. As in the previous year in Chittagong, the heaviest item of expenditure was under the head of repairs. This district at one time possessed a very complete system of roads, which gradually fell into disrepair from want of funds to keep them up. Every effort is now being made to re-establish communication. In the other two districts of Noakholly and Tipperah more money was spent on original works than on repairs.

8. Trees are being planted on the road sides of all the Regulation Districts. I have always pressed on the Road Cess Committees the necessity for expending money on village roads, and it is satisfactory to find that the matter has received attention. During his cold-weather tour the Magistrate has many opportunities of ascertaining local requirements in this direction, and money is nowhere better or more economically spent than by a village body in the repair of a road which is useful to the villagers.

*Divisional Annual Account of Income and Expenditure on account of the District Road Fund
of the Chittagong Division for the cess year ending 30th September 1883.*

DISTRICT ROAD FUND.

NOTIFICATION No. 178.

The 28th April 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Cuttack, Pooree, and Balasore for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Orissa Division, are published for general information.

G. F. E. S. NEILL, Major, M.S.C.,

Under-Secy to the Govt. of Bengal, P. W. Dept.

Abstract of a report by the Chairman of the District Road Cess Committee, Cuttack, on the Committee's operations for the cess year 1882-83.

DURING the year under report there has been an increase in the receipts from all sources of the Committee's income as compared with the preceding year. The total of the several heads amounted to Rs. 68,963, as against Rs. 61,949 in 1881-82. Owing to the dilatory procedure under the Certificate Act, only half the number of certificates for the recovery of the current arrears could be enforced within the year, and no steps taken for the enforcement of the certificates of the last instalment (28th April) as payments are scarcely made on the mere service of the notices.

The general maintenance and repair of almost all the district roads now in existence were fairly executed. One among them, Barnan-Kalawatia road, has been reported to have subsequently suffered from floods. It will, however, be put in good order during the current year. A few bridges and culverts, &c., were constructed, but no new line of district road was opened during the year.

The village roads in the Jajpore and Kendrapara sub-divisions were in thorough repair and ten new ones were constructed during the year. In the sudder sub-division such roads were generally kept in repair, and the number constructed in the year was more than double the number constructed in the above two sub-divisions.

The trees planted hitherto on the sides of the different roads in the district are doing well in general. Out of the total number of trees planted, 1,353 are fruit-bearing trees.

The nursery garden at Chouliagunj, being considered altogether useless, was sold by auction on 22nd March 1883.

The different establishments under the Road Committee have, with a few exceptions, worked satisfactorily.

*Abstract of a report by the Chairman of the District Road Cess Committee, Balasore,
on the Committee's operations for the cess year 1882-84.*

THE new Cess Act has given rise to no complaints. The provisions of the Certificate Act for the speedy collection of arrear cesses will give much satisfaction if the shortening of the processes now under contemplation be put in practice.

The Sudder and Sub-Divisional Committees consisted of 19 and 16 members respectively. The attendance of the non-official members was not satisfactory. The Executive Engineer of the Balasore Division attended only one meeting of the Committee, and the Executive Engineer of the Brahmini-Byturni Division attended none.

The full sum allotted for village roads in the Bhuddruck sub-division was nearly expended, but there was a large saving under this head in the Balasore sub-division. The request of villagers of both the sub-divisions, who came forward to ask for grants for the improvement of their village communications, were fully complied with, and in all cases but one, in the sudder sub-division, the advances made during the year were adjusted by actual work before the end of the year.

The arboricultural operations of the year were satisfactory. The nursery gardens were properly kept up, and the plants therein carefully preserved. The trees planted in the previous years are thriving well.

The different establishments under the Committee have given satisfaction in the discharge of their duties generally.

Balance rupees seventeen thousand nine hundred and twenty-four annas five and pie eight only (Rs. 17,924-5-8) on the 30th September 1883.

A. C. CHATTERJEE,

Treasury Officer.

Explanatory memorandum to accompany the annual accounts for 1882-83.

A.—The remaining Rs. 350, which has lapsed, was not drawn through overnight during the year. Early steps will be taken to procure fresh sanction from Government to the same.

B.—The increase of expenditure is due to the payment of cost of service of processes in advance in the shape of court-fee stamps under Board's circular No. 8 of August 1882, which was received subsequent to the submission of the budget for the year under report, and in consequence no provision had been made therein to meet this unexpected charge.

C.—In the budget for 1882-83 only half-provision was made for re-valuation work. The Committee had to pay the whole cost in the first instance, and as it has afterwards been decided that the cost for re-valuation should be borne by the Committee and Government in the proportion of two-thirds and one-third respectively, the Committee has to receive one-third of the cost defrayed by it, for which provision has been made in the current year's budget.

D.—The amounts originally provided, and the amounts subsequently sanctioned by the Commissioner in his No. 322C, dated the 5th October 1883, are as follows:—

NAME OF ROAD.	Budget provision.			Extra sanction.

SHITUL NATH BOSE,

Deputy Collector in charge.

No. 118C, dated Cuttack, the 19th March 1884.

From—W. R. LARMINIE Esq., M.A.C.B., Offg. Commissioner of the Orissa Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to forward herewith, in original, the annual accounts and reports of the several Road Cess Committees of this division for the cess year 1882-83 for publication in the *Calcutta Gazette* under section 179 of Act IX (B. C.) of 1880.

2. The reports appear to have been prepared in accordance with the instructions conveyed in Government order No. 973A. of the 14th September 1880; and in the preparation of the accounts the classification prescribed in Government Resolution No. 201A. of the 26th February 1880 has, as far as practicable, been observed.

3. The duplicates of the accounts have, as reported by the Chairmen of the Committees, been directly forwarded to the Accountant-General, Bengal, as required by Government order No. 21A. of the 6th January 1881.

4. The actual receipts of the year, compared with those of the two previous years, are shown below, together with the estimate for the year under review:—

5. It will be observed that in the Pooree and Balasore accounts interest on arrear cess has been shown under "Fees, fines and forfeitures," instead of under the sub-head "Miscellaneous," as it should have been. The Chairmen of these districts will be instructed to follow the correct procedure in future.

6. The percentages of the cess collections on the estimated receipts are as follow:—

DISTRICT.	Estimated receipts.	Collections.		Percentage.
		Rs.	Rs.	
Cuttack	...	63,715	65,910	103.4

Total	...	1,22,336	1,31,741	107.6

7. The collections were larger in all the three districts than the receipts estimated for.

8. The following contributions from Government towards the joint road cess and public works cess establishments under Government order No. 2 of the 31st January 1879, are included in the sum of Rs. 9,992 shown against the sub-head "Miscellaneous" in paragraph 4 above:—

	Rs.
Cuttack	1,700
Pooree	700
Balasore	350

In Balasore the amount drawn is one-half of that sanctioned: the other half was allowed to lapse through an oversight. It is stated that "early steps will be taken to procure the necessary sanction to the amount being drawn in the current year." The Chairman will be directed to see that the sanction is obtained as early as possible.

9. The estimated and actual outlay, compared with the expenditure of the two previous years, stands thus:—

Total	1,27,038	1,14,027	1,26,326	1,33,626

The sum of Rs. 19,286 shown against "Establishment and contingencies of office of collection" includes expenses incurred in connection with the re-valuation work.

10. The subjoined table shows the proposed and actual outlay on works during the year:—

DISTRICT.	ORIGINAL WORKS.		REPAIRS.		Total proposed.	Total actual.	Percentage.
	Proposed.	Actual.	Proposed.	Actual.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Total	30,134	23,838	56,967	52,344	87,161	76,256	87.49

11. The following figures show the expenditure incurred on village roads in each district as compared with the previous year:—

DISTRICT.	Grants, 1882-83.	Expenditure, 1881-83.	Expenditure, 1881-82.
	Rs.	Rs.	Rs.
Cuttack	7,672	7,326	4,904

Balasore	4,500	4,010	1,465
Total	21,733	19,052	8,866

12. It appears that the Road Cess Committees of all the districts, except Cuttack, expended larger sums in improving village roads during the year under review than in the previous three years. The sum expended in Cuttack on this account exceeds that of the previous year, though it falls short of the amount spent in 1879-80 and 1880-81. I fear very much that the principles laid down by Government in regard to the allocation of funds for village roads are frequently ignored. A short time ago I was obliged to remonstrate with the Road Cess Committee of Cuttack for having directed their engineer to take complete charge of all village roads. Neither the Committee nor its Chairman seemed ever to have seen Government orders on this subject. If village communities will not take the trouble of looking after the repair and construction of their own roads, I do not think that public funds should be allotted for their special benefit.

13. In Cuttack all the district roads are said to have been maintained in fair working order during the year, except one, which is reported to have suffered heavily from floods. The village roads were all kept in thorough repair. Only a very few of them were injured in places by flood water.

14. As regards the Cuttack and Chandbally road, mentioned in paragraph 4 of the Cuttack Committee's report, I would draw attention to my No. 2370. of the 8th August last, and beg that early orders may be passed on the subject.

15. Notwithstanding the heavy floods which did a great deal of damage to the roads in Balasore, they are all said to be kept in fair order during the year under review.

16. The roads in Poorce are reported to be improving gradually, and considering its small income the Poorce Committee seems to have utilized the funds at its disposal more judiciously than those of Balasore and Cuttack.

17. In Balasore I am inclined to believe that for want of proper supervision the funds of the Committee are simply wasted. The Chairman is evidently of the same opinion, but apparently has taken no steps to remedy the evils he complains of. I shall certainly decline to pass any budget which does not provide for the appointment of a proper engineering staff.

18. I regret very much that the Cuttack Committee does not make some attempt to metal a certain number of miles of road every year. The sums spent annually on earthwork seem unusually heavy.

19. As regards the working of Act VII (B.C.) of 1880 in connection with the realization of cesses, the Collectors of Cuttack and Balasore have written in the same strain as in previous years, complaining of its dilatory procedure. The former, writing on the subject, says—"Owing to the time required for entering payments in the demand registers, for writing out a large number of notices and certificates, serving them upon the defaulters, and the further time that the law (section 10 of Act VII of 1880) afterwards allows them in which to make objections, only half the number of certificates for recovery of the current arrears could be enforced during the year, and no steps for the enforcement of the certificates for the last instalment (28th April) could be taken, as payments are rarely made at once on the mere service of the notices in this district."

20. The Collector of Balasore says that "the provisions of the Certificate Act for the speedy collection of arrear cesses will give much satisfaction, if the shortening of the processes now under contemplation be put in practice." This, of course, alludes to paragraph 21 of the Board's report to Government on the road and public works cess operations for the cess year 1881-82.

21. My own views on the subject will be found in the following extract from a report which I recently submitted to the Board in compliance with a special requisition. I said:—"The difficulty in collecting cesses is, as far as my experience goes, chiefly experienced in regard to lakhraj holdings. If Collectors make suitable arrangements for the payment at the same time and in the same place of cesses and Government revenue, arrears of the one demand will generally be found to exist only contemporaneously with those of the other in the case of revenue-paying estates. It is therefore practically necessary to

consider only the alleged difficulty of collection in regard to revenue-free estates. Where the registration of these is complete, I do not think there is any necessity for a more summary process than that allowed by the existing law. The delay of a month is a matter of but little importance, and the costs involved by a longer delay should and do act as a very powerful deterrent to persistent neglect. If the proprietor of a small holding finds that he has to pay some Rs. 2 in addition to the few annas due as cesses in consequence of his own laches, he will probably be more careful in the future, and I have always found that by attaching the tenure on which the cess was due payment was quickly secured. Much of the delay complained of was due to the practice of, in the first instance, attaching other properties belonging to the defaulter, this system of course admitting of various objections being made as to ownership, which could not be urged in regard to the defaulting tenure itself. I am, however, inclined to believe that, if the collecting officers are methodical in their work, and prompt in the issue of certificates, the delays in collection will gradually become less and less, and that all necessity for any special procedure beyond that now allowed will disappear. If however it be found that proprietors remain persistently in arrear, it might be advisable to include the cost of serving the preliminary notice under section 10 of the Act in the demand shown upon the certificate. This would probably tend to ensure still greater regularity; but, as I stated above, I would place greater reliance upon a good system in collecting offices than on any special enactment which might lead to the existence of greater evils than those which it was intended to remove."

DISTRICT ROAD FUND.

NOTIFICATION No. 200.

The 6th May 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Monghyr, Bhagulpore, Purneah, Maldah, and Southal Pergunnahs, for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

G. F. E. S. NEILL, Major, M.B.C.

Under-Secy. to the Govt. of Bengal, P. W. D.

Abstract of a report by the Chairman of the District Road Cess Committee, Monghyr, on the Committee's operations for the cess year 1882-83.

THE collections during the year were not satisfactory, they having amounted to 87 per cent., against 97 during the previous year. The collections thus fell short by 10 per cent., and this decrease is mainly due to laxity in carrying out the certificate procedure in consequence of want of sufficient staff and other similar reasons. The work of re-valuation has been completed, and the collection under it has been commenced during the year. An increase of Rs. 30,000 in the demand has been effected under this re-valuation.

All the meetings held by the members of the District Road Committee during the year were attended by a sufficient number of members to form quorums, and consequently business was regularly transacted at each of them. The attendance of the mofussil members was not satisfactory, as reported in previous years.

The members of the Begoserai Branch Committee were regular in their attendance, but this cannot be said of the Jamui Branch Committee, the members of which have neglected their duties in this respect. Some of the members, however, of this Branch Committee have attended regularly and afforded much assistance. The European members as well as some of the native members of the Begoserai Branch Committee took a lively interest in their work, and rendered great assistance in carrying out and supervising the numerous petty works annually executed.

Great improvements are annually made in the village communications, for which purpose grants have been made to the Branch Committees.

Tree-planting has been attended to by the Committee. Several miles of roads have been planted with fruit trees, and it is hoped that, within the next few years, most of the important roads under the Committee will be well supplied with trees.

A greater portion of the outlay during the year under review consisted in the maintenance and repairs of the existing roads. Among the new works undertaken by the Committee, there is none which needs any special mention, except the bridging of the Sheikhpara to Sekandra road. On the whole, the state of the roads in the district is generally good.

The several establishments under the Road Committee have worked satisfactorily.

Road Committee.*

Abstract of a report by the Chairman of the District Road Cess Committee, Bhagulpore, on the Committee's operations for the cess year 1882-83.

THE Cess Act has worked well in this district. Inconvenience is, however, experienced when a Vice-Chairman, who is a non-official, leaves the district or head-quarters temporarily, sometimes for two or three months. The appointment of an acting Vice-Chairman should be provided for in the new Act.

The members of the District and Branch Committees have generally taken a good deal of interest in their work.

The District Committee have done a good deal of useful work in the way of completing the bridging of roads during the past cess year. All the timber bridges on the important and much used road from Bhagulpore to Amerpore, and on that from Amerpore to Banka, have been thoroughly restored with new and in places with old but serviceable sal timber. This work has been completed in a satisfactory manner at a cost of Rs. 9,589. The bridging of the road from Mudchpoorah to Sonbursa, which was left incomplete in the previous year, has been completed. The bridging of the road from Milki to Sonbursa was commenced and completed during the year. A new bridge has been built over Tilabeh river at a cost of Rs. 7,055, half of which was contributed by the Monghyr District Committee. Similarly the bridging on two or three other roads has been completed during the year.

Very little has been done in the way of tree-planting during the year owing to want of funds, Rs. 4,127 having been expended by the District and the Branch Road Cess Committees. At present 7,600 trees have been planted out, and this is over and above the number of trees which have grown sufficiently to require no more looking after. The Maharajah of Durbhunga has planted fruit trees along several miles of the Kanowli road, but they have been planted too far from the roadway, apparently with the object of preventing disputes about ownership in future years.

The several establishments under the Committee have done their work well, and the books and returns of the Committee were found in good order.

*Abstract of a report by the Chairman of the District Road Cess Committee, Purneah,
on the Committee's operations for the cess year 1882-83.*

The Act works smoothly enough in this district, and the people are pleased with the improvement that has taken place in the communications. There was no special meeting of the District Road Committee held during the year, but eight ordinary meetings took place; and the working of the Committee was satisfactory. There was no quorum at one of the meetings held at Kissengunge and at one held in Arrarrah. Most of the members took great interest in the road cess matters, and many of them gave valuable assistance in carrying out repairs to district and village roads. The Executive Engineer, Bhagulpore Division, and another non-official member did not attend any of the meetings, but the average attendance of members was fair.

All the district roads were repaired last year almost up to the budget allotment, and the existing bridges received due attention. Of the nine inspection bungalows, one was renewed and seven thoroughly repaired; the remaining one needed no repair.

All the village roads were repaired during the year, with the exception of a very few; and the total expenditure on this account was Rs. 9,170.

Trees were planted on roads Nos. 14 and 5, and near inspection bungalows, at a total cost of Rs. 137. The existing trees on district and village roads also received due attention.

The several establishments under the Committee have, on the whole, worked satisfactorily.

No. 6.—Part II.

PUURNAH,

The 22nd November 1883.

Vice-Chairman, District Road Committee.

Abstract of a report by the Chairman of the District Road Cess Committee, Muldah, on the Committee's operations for the cess year 1882-83.

THE collection work during the year has been satisfactory. The amount of road cess unrealized at the close of the preceding year was Rs. 1,574 to which the demand for the year Rs. 28,883 being added, and Rs. 122 previously paid in advance being deducted, the net amount of road cess realizable within the year stood at Rs. 30,335. Of this sum Rs. 27,947 has been collected and Rs. 38 remitted, leaving an outstanding balance of Rs. 2,350 at the end of the year. To this amount has to be added the sum of Rs. 201 paid in advance, and the total road cess levied in the district amounted to Rs. 28,148, the percentage of which on the current demand was 97.4. The demand for the current year has increased from Rs. 24,899 to Rs. 28,883 by the re-valuation of the district.

There were six meetings held during the year for transacting business, and all were presided over by the Chairman. The attendance of the members of the Committee was not satisfactory, but some of them have given much assistance in superintending the repairs of roads in their respective neighbourhoods.

All the existing trees on roads were properly taken care of, and a few that had been destroyed by fire were replaced during the year.

There are 93 roads in the district, aggregating 572 miles in length. Of these about 386 miles are under the personal supervision of the District Engineer, and the rest are kept in repair by local zemindars, planters, &c.

The several establishments under the Committee generally worked fairly well throughout the year.

W. M. SMITH,
for Deputy Commissioner, Sonthal Pergunnahs.

No. 440 P.W., dated Bhagulpore, the 24th March 1884.

From—G. N. BARLOW, Esq., Commissioner of the Bhagulpore Division and Sonthal Pergunnahs,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the annual accounts and reports of road cess operations for the cess year 1882-83 from all districts in this division.

2. The report from the Monghyr district was not received until the 27th of February 1884, and for this reason the submission of my report has been delayed. The reports and accounts from other districts were received in good time.

3. *Receipts.*—The percentage of collections in the five districts was as follows:—

Monghyr	87.0 per cent.	
Bhagulpore	95.7	
Purneah	101.74	(The increase is owing to arrears and advance collection).
Maldah	97.4	
Sonthal Pergunnahs	No road cess in this district.	

The Chairman, District Road Committee, Monghyr, states the reasons of the falling off in percentage of collections during the year.

In Monghyr, Bhagulpore, and Maldah re-valuation has increased considerably the road cess demand.

4. The Chairmen of the three most important districts—Monghyr, Bhagulpore, and Purneah—report most favourably on the state of the roads in their districts, and in the great improvement which is yearly taking place.

In Maldah the income is small, and there are many difficulties in the way of getting work done, but even here, old main roads are again being brought into order, and a number of surface roads maintained, where, but a few years ago, there were none.

The Act is reported to work well and be appreciated, and there can be no doubt of the very great improvement which has been (and is being) effected in the general communications of these districts during the last few years since the system has gradually settled down into practical working order. In all new works, masonry bridges are taking the place of timber structures, or, where these latter are still necessary, they are put up in a more permanent form. The miserable structures on old bridged roads are being quickly replaced by better ones. The result is now beginning to be apparent in the lessening of the annual amounts required for repairs, and each year will bring an improvement in this respect, and I consider it not too much to say that with the present system kept in good working order for a few years more, these districts will be supplied with the necessary communications throughout; that the funds will be ample to keep them in proper order, and to allow of such new works as will necessarily be, from time to time, required, being constructed without further help from the Local Government. Such will each year tend, more and more, to show the cess-payers that they are gaining some real, useful, and practical advantage from what they pay.

A number of surveys were carried out during the year, and many important projects submitted, some of which had been unsettled for years, notably the embanked Tirthoot road in north Monghyr and the main northern road in the Bhagulpore district to Muddehpura.

In the Sonthal Pergunnahs, there being no road cess or Committee, the Deputy Commissioner confines his report to a brief statement of work done, but this district is no exception to the rule, and under his immediate energetic supervision the main roads are being completed, minor roads opened out, and nearly all maintained in first rate order, being mostly drivable throughout.

5. The number of members of each District Committee and the average attendance is given below:—

NAME OF DISTRICT.	Number of meetings.	Number of members.	Average number attending each meeting.	Numbers who did not attend any meeting.
Monghyr	6	18	5½	8
Bhagulpore	8	17	6	4
Purneah	8	13	6.12	2
Maldah	6	20	6	9

The number of meetings held at Monghyr and Maldah is insufficient for the Committees to have exercised much real control over the work, while the number of members who did not attend any meeting is large, and shows that many members have been selected who take no interest in the road cess work. I think that, if Committees are to exercise any real control over work, that meetings should be held not less than once every month, and this, if possible, on a stated day in each month, so that members living at a distance can make their arrangements for attending in time.

In Purneah the Committees are reported to have worked satisfactorily, and, in Bhagulpore, to have taken much interest in the work. The services of the Vice-Chairman, Rai Shib Obundra Banerjee, Bahadoor, are specially noted.

6. *Branch Committees.*—In Monghyr, the members of the Begooeserai Sub-Committee are reported to have been regular in their attendance, and to have given much assistance in carrying out and supervising most of the work in the sub-division. In Jamui the attendance was unsatisfactory, and but a few members appear to take any interest whatever in the work.

In Bhagalpore, the Branch Committees are reported to have worked well. The attendance was good. The services of the Vice-Chairmen of the Sudder and Supul Branch Committees, Baboo Sri Mohun Thakoor and Syud Ghulam Maula, are specially noticed.

In Purneah, the attendance of the Branch Committees has been fair, and they appear to have worked satisfactorily.

There are no Branch Committees in Maldah.

ORIGINAL WORKS.

7. *Monghyr.*—The principal work has been—the completion of the bridging on the Secundra to Sheikpura road No. 15 (not yet fully done), and that on the Ramghur and Sheikpura road No. 17 (completed); making a new diversion on the road from Luckeeserai to Jamui, at a place where the Keal river was breaching the old road; and constructing a diversion road round the large bazar and village of Burhea on the Patna road No. 13: the line through the bazar for over two miles being nearly impassable, 325 r.ft. masonry bridges were completed, and 600 r. ft. temporary structures were restored.

All roads in the district were thoroughly repaired early in the season, and many old culverts and bridges dismantled and properly restored.

8. *Bhagulpore.*—The principal works have been—the re-construction of timber bridges on the road from Bhagulpore to Umerpore at a cost of Rs. 600, the completion of the masonry bridges on the Sonbursa and Muddelpura road on the north, and the construction of a large timber bridge over the Telabee (where the Monghyr district is met) at a cost of Rs. 7,000. The masonry bridges on the short road from Milki to Sonbursa were commenced and completed during the year.

All the roads in the list have been kept in good order and repair, and, in the north, many temporary bridges replaced by better structures. A saving of Rs. 5,000 was effected on the total estimate for repairs, which was satisfactory.

Thirty-two roadside wells have been constructed for the use of passengers, four inspection bungalows have been built, 149 r.ft. of new bridging was completed, and 704 r.ft. of timber bridging restored during the year.

9. *Purneah.*—The chief work in this district was the bridging of roads Nos. 6 and 7, Raneegunge to Barscoe, and Bassantpore to Raneegunge. In road No. 6, 330 r.ft. of timber bridging was completed. In road No. 7, 370 r.ft. of ditto ditto, the work being of a substantial character. A great deal of work was also done in road No. 1, from Purneah to Barscoe, in raising the road above flood level and filling in breaches. Many other roads were raised, straightened, or improved.

The roads of the district were kept in good repair, and much attention was paid to giving them a proper section. Before they were nearly all, more or less, hollow at the centre. They have now nearly all a proper rounded surface which throws off the rain-water.

10. *Maldah.*—No new works of any importance have been carried out, and until the old main lines of road which have been allowed to fall into entire disrepair have been restored it is not advisable to commence any. Grants-in-aid were given for:—

1. The Gadagari and Dinagepur road	...	No. 10.
2. Nawabgunge to Jhelum	...	39.
3. Mukrampore to Parbuttypore	...	42.

These lie to the east of the district, carry very heavy and important traffic, but had been entirely neglected for years. Most of the bridges and bank of the first have been restored. The second has been completed and put in good order. A good deal of work has been done on the third, including four timber bridges, but the work is not completed.

On the old main road from Rajmahal to Dinagepur some work has been done between Rajmahal and Maldah, but from (old) Maldah north the road has been neglected. No work has been done on this for years. A large grant has been made for the purpose of restoring this road during the next cess year. The other roads in the district do not carry heavy traffic. The usual repairs have been executed throughout. Much of the repair work of this district is done by Messrs. Reilly, Hennessy, Walton, and Saupin; Mr. Reilly alone having 12½ miles of road under his charge. The north-west of the district has been much opened out and communications improved by him.

Most of the navigable rivers have been brought into the road cess list, and it is hoped that next cess year something may be done in the way of removing snags and cutting through shallow bars.

11. *Sonthal Pergunnahs.*—Two masonry bridges were built on road No. 4, Dumka to Murraroe Railway Station. These streams were difficult to cross, and the bridges are most useful here. The roads in the district have been kept generally in good repair, and the main

roads are in excellent order. During the close of the year all roads before under the Public Works Department were taken over as district roads. Several projects are in hand for completing the bridging of the main existing roads, for which a grant-in-aid has been given by Government.

12. *Village roads.*—These have been repaired and considerable improvements effected in Monghyr and Bhagulpore. In Purneah most, but not all, have been maintained in good order. In Maldah, village roads are included in the list of district roads. In the Sonthal Pergunnahs, the three village roads have been repaired. Below is given expenditure on purely village roads :—

NAMES OF DISTRICTS.	Expenditure on village roads.		
	Rs.	A.	P.
Monghyr	13,295	1	8
Bhagulpore	19,623	14	11
Purneah	8,317	8	3
Maldah	3,191	1	6
Sonthal Pergunnahs	429	7	9
Total	44,857	2	1

13. *Planting trees.*—This has been carried out, more or less, in each district, with varying results. In Monghyr, whole lengths of road have been let out to contractors for payments-by-results. The Chairman reports this is still a tentative system, but I think, as most of the contracts were given out in 1882, that enough experience has been gained to allow of the results being judged. On one road, Ramghur to Seikhpoora, it has been a complete failure. On the Tirhoot road the trees are reported to be doing well. On the Patna road No. 13, and Sugrampore road No. 16, the results cannot be said to be satisfactory. Everywhere the smallest seedlings have been put in which will require one or two years' more care and maintenance than proper-sized trees from nurseries, and the Committee have made themselves responsible for a very heavy future annual expenditure, the amount of which they have no means of judging. The maintenance of existing trees on the roads in the south of the district has not been satisfactory.

In Bhagulpore, two-years old trees from nurseries are only planted out and maintained departmentally. These are well looked after. Many planted out three to four years ago now require no maintenance: all planted are strong and flourishing, and it is only to be regretted the Committee were unable to allot more funds for planting out from the well stocked nurseries. I strongly urged some further moderate allotments.

In Purneah and Maldah, the existing trees have been fairly maintained, but nothing worth mentioning has been done in planting out. In these districts, with so much uncultivated land and jungle, this is a work which I am not inclined to press on much, until the state of communications are much more complete than at present.

In the Sonthal Pergunnahs, the trees are planted out from nurseries, maintained departmentally, are well cared for and thriving, and a fair length of road has been newly planted out. Below is an abstract of trees planted out and maintained. :—

NAMES OF DISTRICTS.	Number planted out during 1882-83.	Total number maintained during 1882-83.	REMARKS.
Monghyr	1,545	18,150	
Bhagulpore	1,184	11,861	
Purneah	349	2,517	
Maldah	None.	3 miles.	
Sonthal Pergunnahs	(20 miles) 3,000	9,500	

14. *Accounts.*—The year commenced with a balance in hand of Rs. 47,889, including an unnecessary heavy balance in Maldah of Rs. 20,956: fair working balances in Purneah and Sonthal Pergunnahs, and an insufficient balance in Monghyr and Bhagulpore, in which districts work was, more or less, retarded for want of funds at the commencement of the year. The year closes with a balance in hand of Rs. 1,04,227: Monghyr again has an insufficient balance for working purposes. Bhagulpore and Purneah have fair working balances, and Maldah and Sonthal Pergunnahs heavy balances of Rs. 21,554 and 59,196 respectively. The heavy balance in Maldah was on account of work estimated for not having been carried out: that in the Sonthal Pergunnahs on account of Government grants given late in the year, which could not be utilized until estimates were prepared and sanctioned.

The suspense accounts are heavy in the districts of Monghyr, Bhagulpore, and Purneah. In the Sonthal Pergunnahs only has all expenditure been finally booked up to the end of the year. These large suspense heads are probably chiefly for work done, but not finally measured, paid for, or booked, but, until detailed, render nugatory any comparison of actual expenditure under head of "repairs" and "original" works.

The usual abstracts of accounts accompany, as follows:—

Abstracts giving the totals of receipts and expenditure in this division; the same showing details under the various heads; expenditure on works in the different districts; the expenditure on village roads, and the balance in hand at the close of the cess year.

15. *Establishment.*—The only change in establishment has been in Purneah, where the District Engineer, Mr. Roberts, took six months' leave last September, and Baboo Nogendra Nath Chatterjee, B.C.E., was appointed to act for him. The establishment throughout is reported to have worked well. The District Engineers have now a complete knowledge of their districts, and deserve credit for the many improvements made, and for their steady attention to their work, especially considering the very uncertain nature of their present appointments.

To the Divisional Superintendent my best acknowledgments are due for the interest he takes in the work. I cannot wish better for my division than that his services may long be retained here.

The following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Burdwan, Bankoorah, Beerbhoom, Midnapore, and Hooghly and Howrah, for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Burdwan Division, are published for general information.

G. F. E. S. NEILL, MAJOR, M.S.C.,
Under-Secretary to the Government of Bengal,
P. W. Dept.

Abstract of a Report by the Chairman of the District Road Cess Committee, Burdwan, on the Committee's operations for the Cess year 1882-83.

The total demand for the year, including arrears was Rs. 1,47,276, and the total collections amounted to Rs. 1,34,905, or 91 per cent. of the demand. The total receipts during the year for this district amounted to Rs. 1,62,162, and the total expenditure came to Rs. 1,83,203. The year opened with a balance of Rs. 42,408, and closed with a balance in hand of Rs. 21,367.

The following works were completed within the year:—

- (1). Metalling portions of 1st and 2nd miles of Mymaree and Satgachia Road.
- (2). Metalling portions of 9th to 11th and 14th miles of Burdwan and Jehanabad Road.
- (3). Reconstructing 6th mile of Baneegunge and Sooree Road.
- (4). Bridging Searsole and Domohonee Road.
- (5). Constructing Taporri Colliery Road.
- (6). Constructing Kendua to Rampore Road.
- (7). Constructing Majergram Inspection bungalow on the Satgachia and Montepur Road.
- (8). Sanding 6th mile of Cutwa and Sooree Road.

With the exception of the roads Nos. 15, 20, and 2, all the roads undertaken are reported to have been satisfactorily repaired within the year, though final payment for certain roads were made after the close of the year.

Rs. 6,000 for the Sudder and Rs. 2,500 for each of the three Sub-Divisions were allotted in the Budget for village roads; almost the whole allotment has been spent.

During the year under report four miles of the Kurjonah to Munglecote road were newly planted with trees transplanted from the Nursery at Negone, and the plants are reported to be doing well.

The District Engineer, Mr. E. A. Stoney, has continued to give satisfaction, and reports that his office establishment and subordinates worked well, and that Baboo Beedhubhason Banerjee, Overseer, left in charge of the district during his absence on leave for three months towards the close of this year, has given him general satisfaction.

Abstract of a report by the Chairman of the District Road Cess Committee, Bankoora, on the Committee's operations for the cess year 1882-83.

THE road cess was levied at the maximum rate in the district during the year under report. It was on the whole realized without much difficulty. Out of the actual demand of Rs. 39,776, from cess on lands and mines, Rs. 36,775 were realized up to the end of the year, leaving a balance (inclusive of Rs. 9 remitted) of Rs. 3,001 unrealized, of which Rs. 1,675 were outstanding against the Ghatwali and Rs. 1,317 against the revenue-paying and revenue-free estates. Partial revaluations under the Cess Act IX (B.C.) of 1880, are still in progress in this district.

Twelve non-official members of the District Committee, having failed to attend six consecutive meetings ceased to be members under section 115 of the Act. Seven of them, however, have been reappointed by Government, and three new members have also been appointed in the place of two deceased, and one unwilling to continue on the list. The attendance of the non-official members was not satisfactory.

Six (one official and five non-official) members of the Branch Committee of Bishnupore have become disqualified members, having been absent at six consecutive meetings. The attendance of the other members has been reported by the Chairman of the Branch Committee to be satisfactory.

The following are the works of important nature that were executed under the head "Original Works" during the year:—

Indas and Kotulpore Road.—The construction of this new line of communication was commenced in January 1882. The total estimated cost of the work as sanctioned by Government was Rs. 9,503. Up to the end of the year under report the Committee have been able to allot up to Rs. 7,500. The remainder of the estimated cost has been allotted in the current year's budget. The District Engineer reports that the work has now been completed with the exception of turfing, which could not be done for want of rain.

Indpur and Khatra Road.—This road is about 12 miles in length, and has been commenced at the Khatra end. The last five miles of it, from Rangamatia to Khatra, were sanctioned by Government during the cess year 1881-82. The District Engineer reports that the temporary survey staff has already commenced the detailed survey of the remaining seven miles, and the necessary project will be prepared and submitted in due course. The progress made in the construction of the last five miles has been reported as fair.

Pilgrim Road.—The construction of this road outside round the town of Bankoora has for its object the preservation of the town from the contagion from the pilgrims en route to

Abstract of a report by the Chairman of the District Road Cess Committee, Bankoora, on the Committee's operations for the cess year 1882-83.

THE road cess was levied at the maximum rate in the district during the year under report. It was on the whole realized without much difficulty. Partial revaluations under the Cess Act IX (B.C.) of 1880, are still in progress in this district.

Twelve non-official members of the District Committee, having failed to attend six consecutive meetings ceased to be members under section 115 of the Act. Seven of them, however, have been reappointed by Government, and three new members have also been appointed in the place of two deceased, and one unwilling to continue on the list. The attendance of the non-official members was not satisfactory.

Six (one official and five non-official) members of the Branch Committee of Bishenpore have become disqualified members, having been absent at six consecutive meetings. The attendance of the other members has been reported by the Chairman of the Branch Committee to be satisfactory.

The following are the works of important nature that were executed under the head "Original Works" during the year:—

Indas and Kotulpore Road.—The construction of this new line of communication was commenced in January 1882. The total estimated cost of the work as sanctioned by Government was Rs. 9,893. Up to the end of the year under report the Committee have been able to allot up to Rs. 7,500. The remainder of the estimated cost has been allotted in the current year's budget. The District Engineer reports that the work has now been completed with the exception of turfing, which could not be done for want of rain.

Indpur and Khatra Road.—This road is about 12 miles in length, and has been commenced at the Khaira end. The last five miles of it, from Rangamatia to Khatra, were sanctioned by Government during the cess year 1881-82. The District Engineer reports that the temporary survey staff has already commenced the detailed survey of the remaining seven miles, and the necessary project will be prepared and submitted in due course. The progress made in the construction of the last five miles has been reported as fair.

Pilgrim Road.—The construction of this road outside round the town of Bankoora has for its object the preservation of the town from the contagion from the pilgrims en route to

Juggernath. The work was completed and paid for during the year. There is a culvert wanting over a gap.

Panighar Railway Station and Bishenpore road.—The metalling of the last 7 miles of the railway feeder road from Panighar to Bishenpore was completed and finally paid for during the year. The work done on it has been reported to be satisfactory.

Taldangra and Raipore road.—The necessary project for this road has been submitted to the Divisional Superintendent. He has, however, called for an estimate for a bridge over the Joypanda which is under preparation by the District Engineer under the instructions of the Divisional Superintendent. The bridge, however, will be beyond the means of the Committee for many years to come, and it is hoped the rules of the department will not prevent putting in hand the worst portion near Taldangra, about two miles in extent, by which means through traffic will be secured, as the land from this point to Raipore is comparatively high.

Raipore—Salboni road.—The next work worthy of notice under the head was the construction of a road from Raipore to Salboni in the Midnapore district. This road will afford very great benefit to the people of Raipore who have scarcely any means of access to the trading centres for the disposal of their produce. The work was in progress during the year and will be completed ere long. Every possible attempts are being made to open up this tract of country with means of communication.

Village roads.—About 25 village roads were constructed in the district during the year, 12 in the Sudder and 13 in the Bishenpore Sub-Division. Eleven unfinished village roads of the previous years were also completed during the year under report. The total subscription in money or labour received from the villages was Rs. 677. The work of the improvement of village roads is now administered by the Committees themselves without the aid of the Engineering Establishment.

The planting of trees on the road sides which forms an item under head "Original works" deserves mention. It was carried on as previously under the contract system, and on three roads only partially by the establishment of paid coolies. 3,745 trees planted during the previous years were properly maintained during the year under report. There were some cases of failure, but on the whole the work was, as the District Engineer reports, satisfactorily done.

The objectionable procedure of keeping repair works unfinished and unpaid at the end of the year has been put a stop to. All the repair works of the year under review were completed and finally paid for before the year closed. Unfortunately as this was not contemplated when the budget was framed, no provision was made for short collections and cost of establishment in first quarter, the result has been that the account stands overdrawn. This will, however, be covered by the Government contribution of one-third towards the cost of revaluation now due for two years and for which application has been made.

DWABKANATH SEN,

For Chairman.

Abstract of a Report by the Chairman of the District Road Cess Committee, Midnapore, on the Committee's operations for the cess year 1882-83.

THE percentage of average attendance of members was 36·06, while that of the previous year was 37·70. During the year under report there were six meetings of the Branch Committee at Tumlook, and two meetings at Contai. In all the meetings of the Branch Committees there was quorum.

All the main line of communications, particularly metalled roads, received renewal coats of metal, and petty repairs to metalling where necessary, so that at the beginning of the new cess year 1883-84 the roads were found in good order. All the unmetalled roads received necessary repairs, and were never unfit for fair weather wheeled traffic.

The following are the most important and noteworthy works under the head of "Original Works" in the course of execution or executed during the year:—

(a.) Some small culverts have been made on road No. 3, Lodhasye to Panibatty for the purpose of irrigation, as well as to discharge surface drainage of the country.

(b.) About 3 miles of the most muddy portions of the Bombay road have been metalled towards the frontier to the great convenience of the public, and the road hitherto remaining in an impassable state has been opened to traffic.

(c.) The remaining portion of the causeway in the 17th mile of Road No. 6, Burdwan Road, has been completed, and the injuries to which the road was hitherto subject from extraordinary floods have been guarded against.

(d.) The whole length of road No. 8, Gurbetta to Ramgurbh, which was very narrow, has been widened to 20 feet so that two carts can easily pass each other.

(e.) The most muddy portions of road No. 9, Chunderconah to Amlajorah, have been metalled, and the road itself repaired and widened. This is one of the principal feeder roads to Ghattal Port, and the improvements made in it have apparently tended to the development of traffic.

(f.) The whole length of road No. 10, Chunderconah to Gohaltore, has been widened to 20 feet, and this fully meets the requirement of traffic on the road.

(g.) The metalling of road No. 11, Belda to Contai, has been completed. This will make communication with Contai easy, and a considerable increase of traffic on it is already observable.

(h.) The work of bridging road No. 12, Dahijuri to Sildah, has made much progress. It is in contemplation to metal this road next year.

(i.) The metalling of road No. 25-28, Ramgurbh to Cossye, has been completed. It has been considered necessary to divert the portion of road No. 25 from Cossye river to Binpore, with a view to shorten its length as well as to avoid the floods of Sarafeni river, to which the present road is subject. Thus several roads linked together will form a main line of communication between Baraboom and Ghattal.

(l.) The restoration of road No. 26, Chuttergung to Ramjeebunpore, has been completed.

(m.) The portion of road No. 29, Satpatty to Kantapaharee, traversing the dense sal jungle near Kantapaharee has been reformed, and the shortest route from Raipore to Midnapore opened.

(n.) Feeder road from Lutchimapore to Jonardhonepore has been completed.

(o.) Feeder road connecting the Cuttack Trunk Road with Mohunpore Lock on the western terminus of the Canal has been completed, with the exception of the culverts. The construction of this bit of the road has considerably increased traffic from southern quarter of the district.

Trees have been planted on some principal roads, and those planted before have been maintained and reared. Their general growth and health are promising and satisfactory.

Work on the village roads was carried out chiefly by village Punchyats, under the supervision of the Sub-Divisional Officers, and the members of the Branch Committees; and in some cases by zemindars, planters and missionaries. Chairmen of the Branch Road Cess Committees, and the officer in charge of the village roads of the sudder sub-division were as usual allowed the assistance of a Sub-Overseer from the District Road Staff during the working season for the purpose of reporting on new proposals, checking accounts, &c.

The books and accounts of the Committee have been kept with great care and very systematically.

The annual accounts were duly examined and audited by the Sub-Committee and passed at a special meeting of the Committee held on the 11th January 1884.

The late District Engineer, Mr. Mackennie, having resigned his appointment the work has been carried on pending the arrival of his successor by the Head Overseer, Baboo Chunder Sikher Doss, who deserves much credit for the manner in which he has discharged this unusually responsible duty. The Subordinate Executive Staff have generally worked satisfactorily.
